Software Engineer | JavaScript | Node | React | Python | Football

Miami-Fort Lauderdale Area

Summary

Software Engineering graduate from Springboard's bootcamp looking to make a transition from the automotive industry into the fun and exciting world of web development. With over 10 years as an Audi/Porsche technician, I have developed critical thinking and problem solving skills that will surely be of great use to your team. Interested in working with me? Please feel free to email me at maudysi12@gmail.com

Experience

Braman Porsche West Palm

Automotive Technician

March 2023 - Present (3 years 3 months)

West Palm Beach, Florida, United States

Springboard

Software Engineer Trainee

December 2022 - April 2024 (1 year 5 months)

Mastered skills in front-end and back-end web development, databases, data structures and algorithms. Used backend frameworks such as Flask and SQLAlchemy to create RESTFUL routing and store user information in a SQL database. Also used Jinja templates with Flask to design user friendly and easy-to-use user interfaces. Designed fully responsive web applications using CSS and Bootstrap. Developed backend components using Object-Oriented Programming allowing for easy to read code. Developed RESTFUL APIs using Express.js allowing users to GET, POST, PATCH, and DELETE information.

Champion Porsche

Automotive Technician

May 2022 - March 2023 (11 months)
